

# Simple Little Dolly Pattern

## Dolly Instructions:

Print 3 page pattern and cut all pieces out. Attach arms and legs to body as indicated.

Cut body front from fabric, flip pattern and cut body back from fabric.

Pin right sides together, and sew with 1/4" seam allowance.

Turn doll right side out, and stuff. Pipe cleaners can be added to the arms, legs, and neck if desired.

Hand stitch body closed.

Cut hair pieces from fabric as indicated. Lay separate pieces on solid piece, and sew together with 1/4" seam allowance.

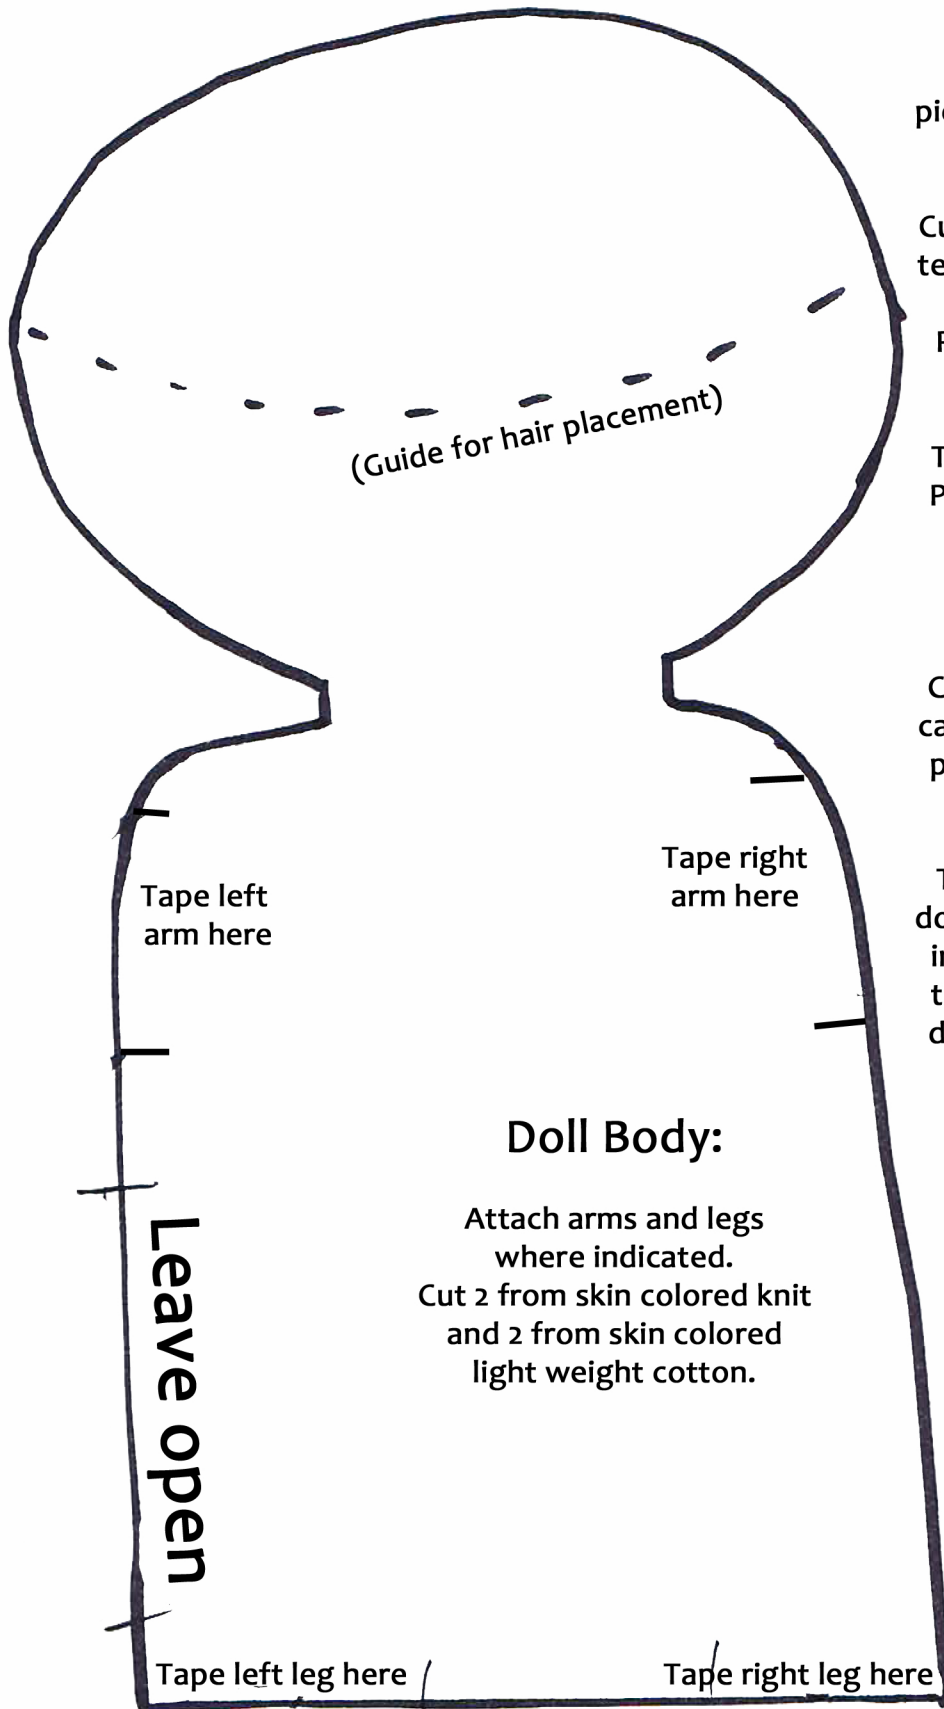

Turn hair and slip bangs over the doll's head. Pin the back of the hair in place, and hand stitch (or glue) to doll's head. Lightly stuff hair if desired, and stitch bangs to head.

Cut dolly's dress from cotton print, and sew as indicated on pattern. Dress dolly.

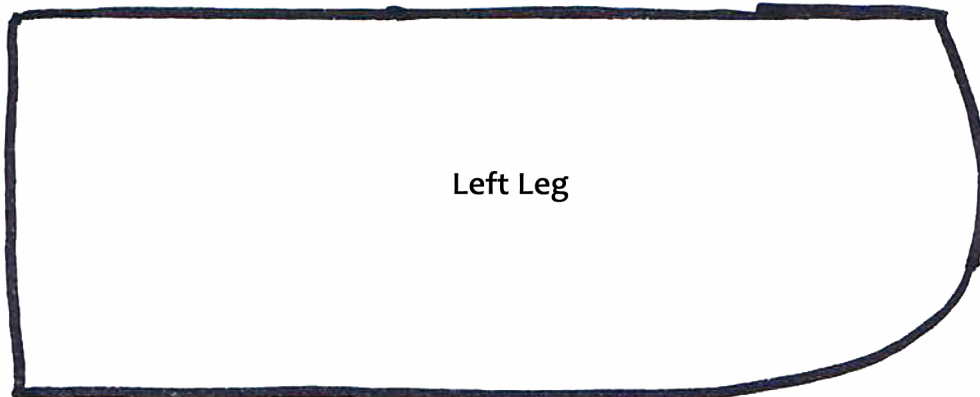

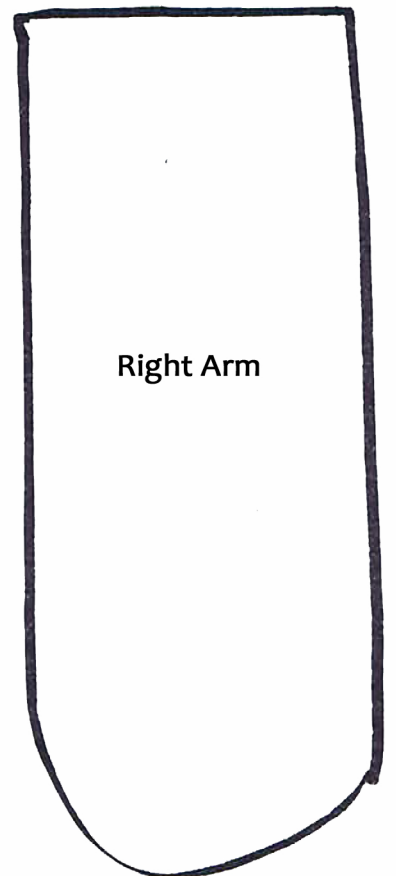

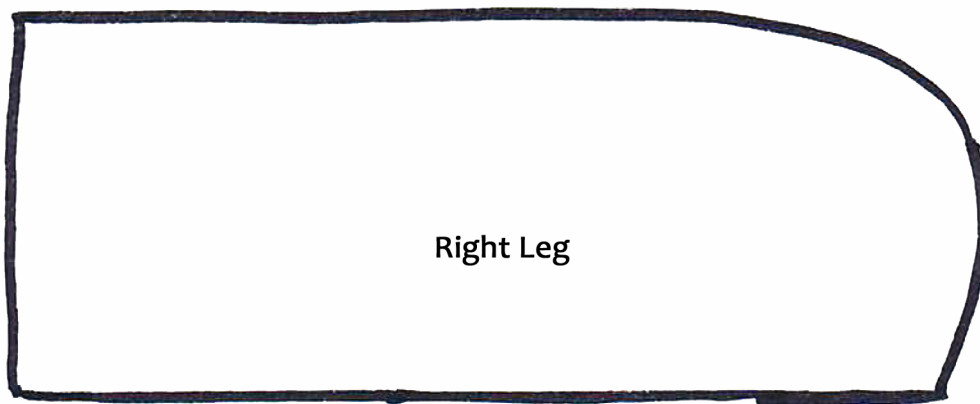

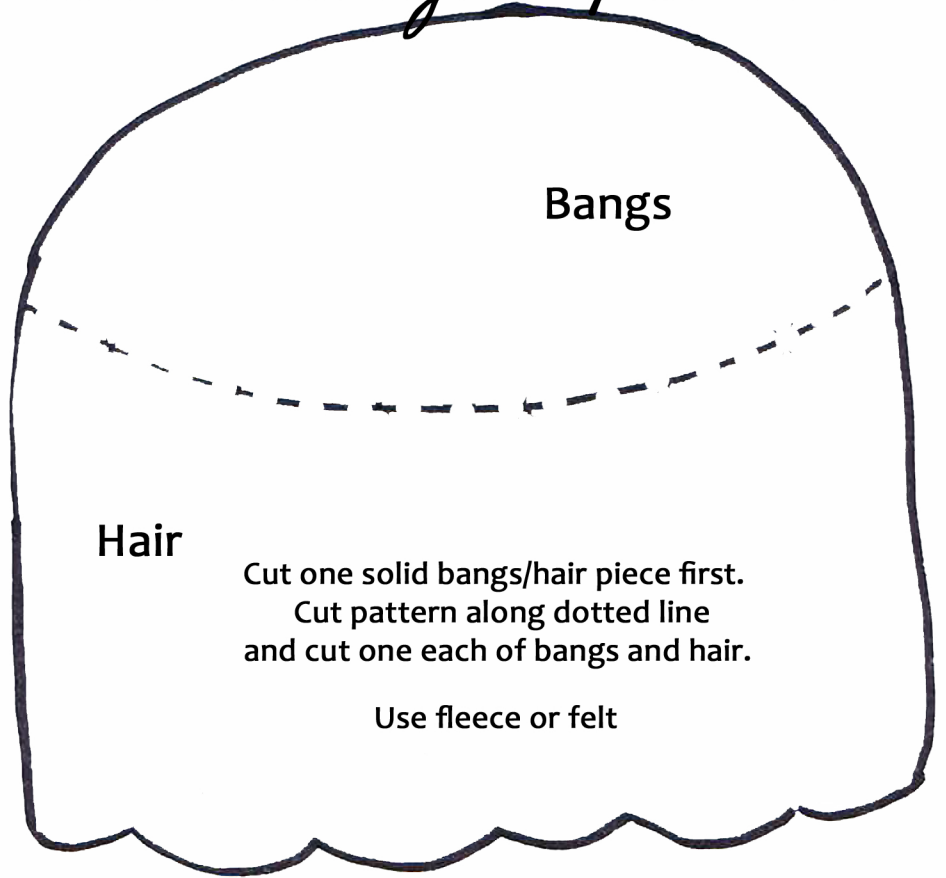

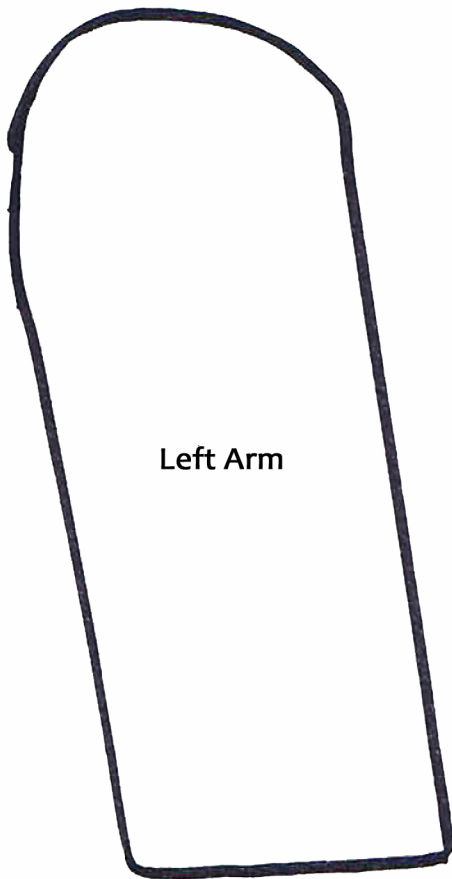

### Notes:

A face can be sewn on before stitching the doll body together, or painted on after the dolly is completed.

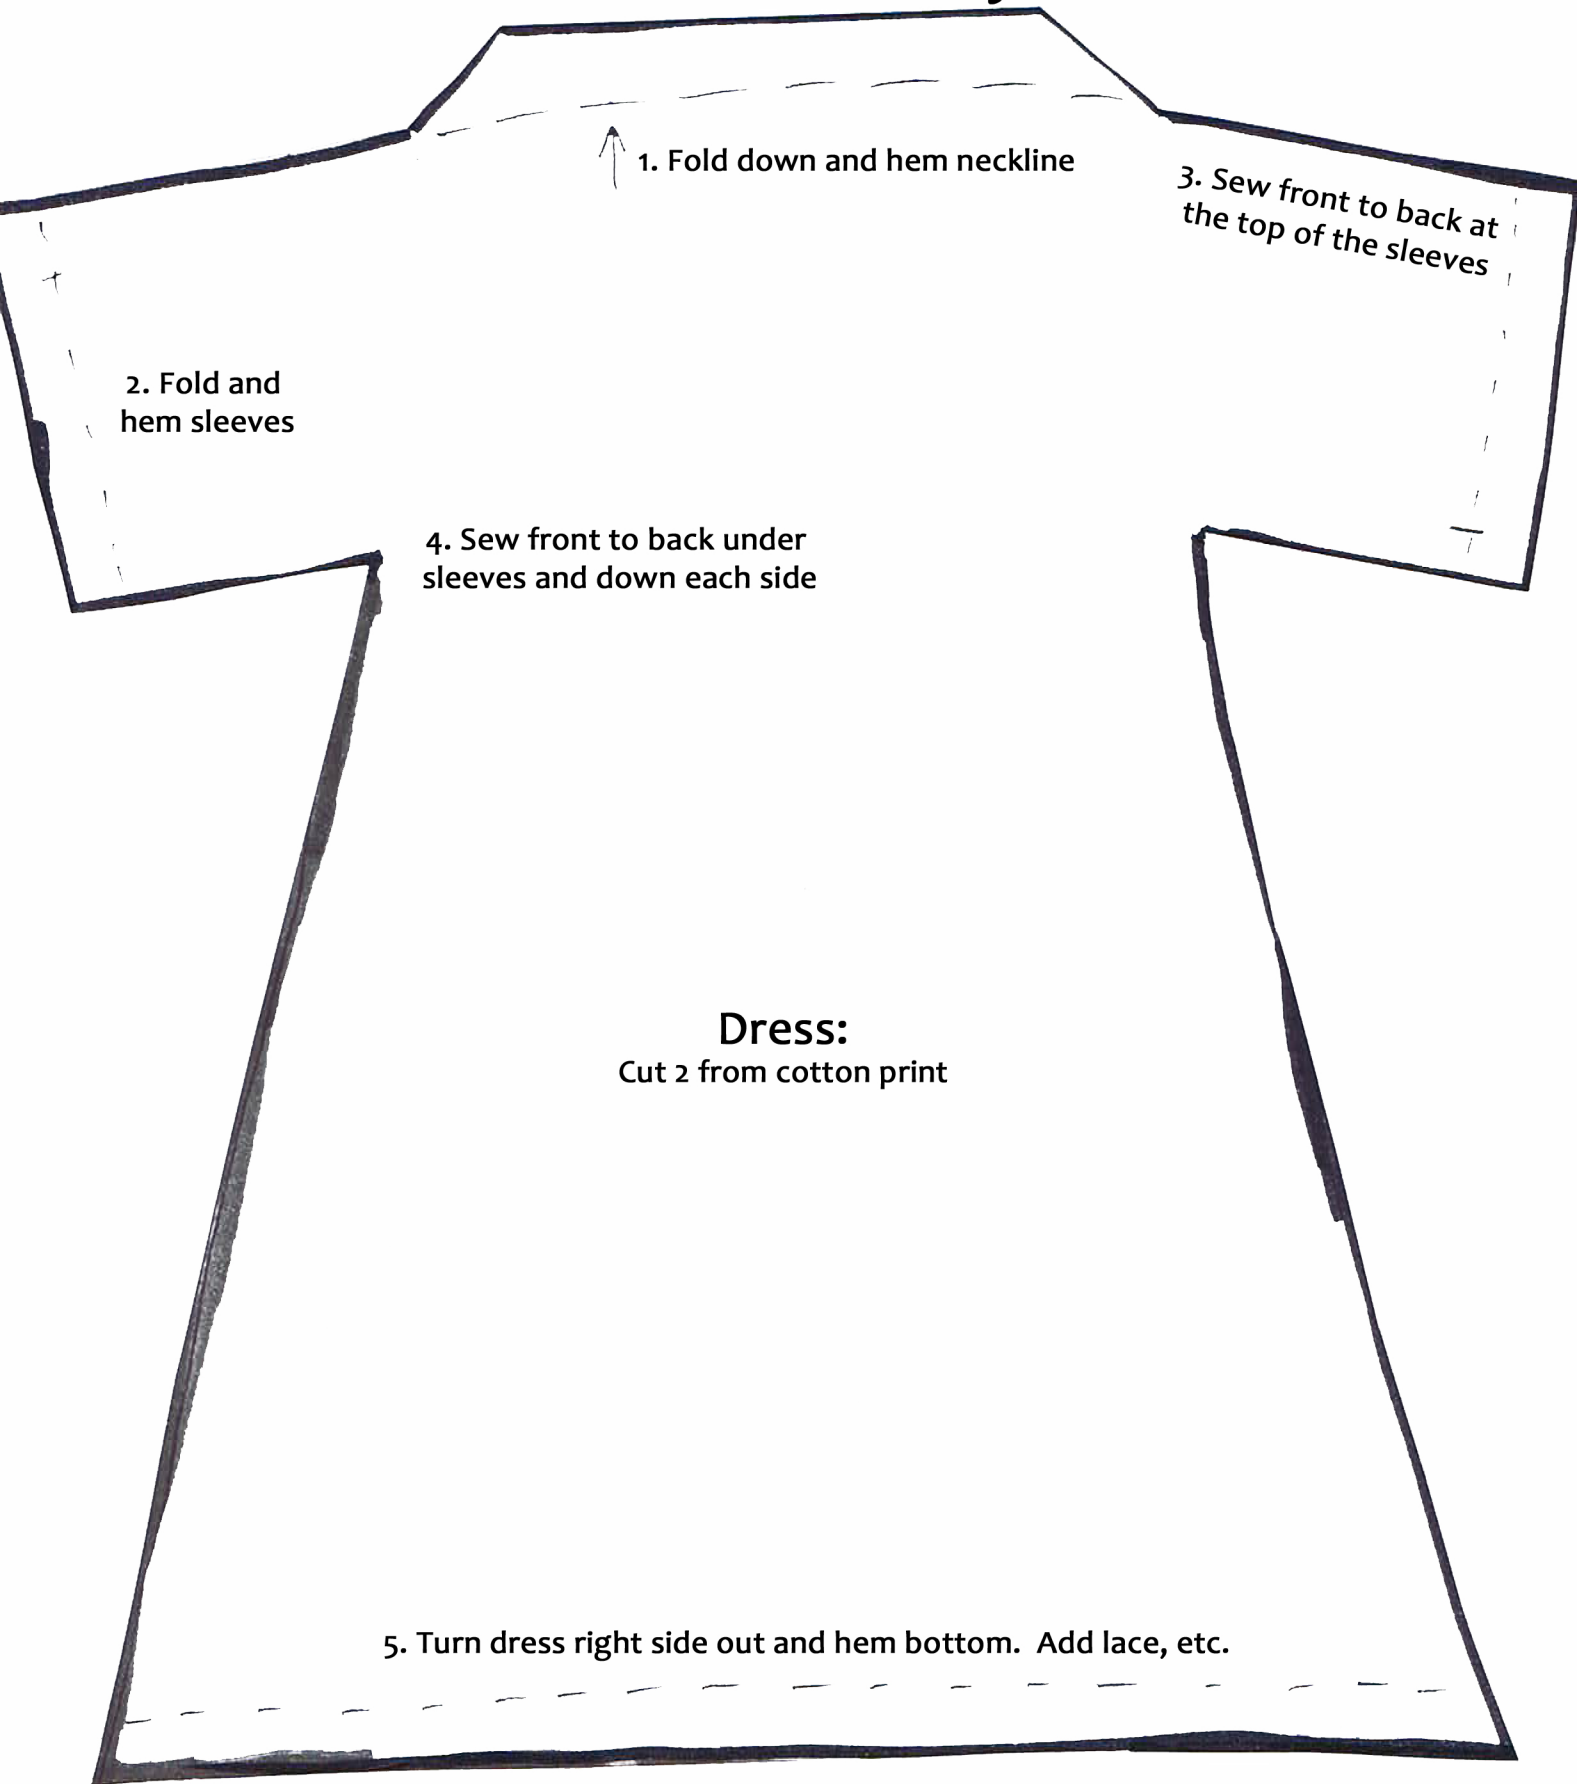

Using a knit over a cotton for the body will make for a soft doll with structural integrity.
